

A modern outdoor lounge area featuring a large, gnarled tree in the foreground. The furniture consists of several lounge chairs with light-colored cushions and patterned pillows, arranged on a wooden deck. A large window in the background offers a view of the ocean. The overall aesthetic is sophisticated and natural.

MATERIAL CARE

General

Furniture should always be lifted not dragged when being moved.

Teak - Outdoor Tables

These are treated in 3 steps with lacquer to obtain a weathered worn colour. The treatments / lacquer will gradually fade over time after continued exposure to sunlight and water. Splits, cracking and slight movement should be expected as timber is a natural product. Our outdoor teak dining tables come with a bottle of Golden Care Teak Shield, more can be purchased from your Artwood stockist. Leave the furniture to weather for three months then clean the furniture with a damp cloth and apply the Golden Care Teak Shield with a soft cloth. Once dry the furniture may be used, this process should be repeated every three months.

TEAK SHIELD
1 Litre
G60004

Failure to care for your teak products may void our warranty.

Outdoor Wicker

Recommended for both indoor and outdoor use, however not in freezing temperatures. May crack after prolonged exposure to strong sunlight and salt. We recommend regular washing with water and a soft scrubbing brush to remove dirt, dust and salt build up.

Cushions - Outdoor

Cushions should not be left out in humid or wet conditions for prolonged periods of time. If cushions are exposed to wet conditions they need to be dried thoroughly and over winter months we recommend storing cushions inside or under cover. Failure to dry thoroughly may result in mould or mildew. All covers are removable and washable in cold water; however dry cleaning is recommended. Replacement cushions or covers are available to purchase in the event of damage.

Powder Coated Aluminium - Outdoor

Our powder coated aluminium ranges include Anson (frame only) and Romano (frame only). They require very little maintenance and can be cleaned with a damp cloth as required.

Romano - Sintered Stone

Clean the top with a slightly damp cloth. Do not use any strong detergents. Always use coasters under glasses, cups, vases etc. The frame can also be cleaned with a damp cloth as required.

Johnston Imports cannot be held responsible for any damage caused during attempts to clean furniture. We highly recommend that professional cleaners should be consulted. Please contact your local store for warranty terms.
