DIFFERENT WAYS OF LIVING

ARTWOOD

With a passion for design and decor, Artwood was founded in Sweden in 1969. A family business that still dares to go its own way. After long journeys to the East, they took home exotic materials that today are the basis for Artwood's design.

With inspiration taken from the American East Coast mixed with a sense of the pulse of the city and rural life, or a house by the sea. We call it Artwoodstyle. Elements which together form a whole natural sense of quality in the individually decorated home.

Our basic materials are rattan, wood and textiles. As nature has its nuances, our furniture has a soul. Every piece of furniture tells its own story. A home reflects one's personality, it should be an inspiration and a place to enjoy and socialise. Each style speaks for itself. Our product range can be varied and mixed to suit your personal style.

HALO ESTABLISHED 1976

The Halo Group, founded by Major Philip Oulton, began life as Halo Antiques in 1976. Major Oulton loved fine furniture and had an eye for attractive antique pieces, which he bought from local people and then sold on within the UK and throughout the world.

His love of beautiful furnishings has now been passed onto his grandchildren, Ollie, Oscar and Poppy. The family tradition continues of supplying high quality, beautiful furniture inspired by the company's British heritage.

Halo Established 1976 uses the finest materials to develop our distinctive designs in-house, allowing us to create quality furniture that looks good and will also last. All our furniture is hand-crafted making each piece unique. We use traditional techniques and tools which add to the overall quality and durability of our furniture.

Halo has a reputation for designing and manufacturing distinctive, innovative furniture. Influenced by iconic designs of the past and present, the Halo collection is a testimony to timeless elegance.

PRODUCT CARE

INDOOR MATERIAL CARE

GENERAL Furniture should always be lifted, not dragged, when being moved.

LEATHER FURNITURE

Do not expose to intense sunlight or place too close to a direct heat source as these could cause it to crack or age prematurely. Avoid sitting on the arms, back or the very edge of your leather furniture as this may cause distortion or damage. Be aware that clothing with transferable dyes, such as blue jeans, could transfer the dye onto light coloured leather furniture. Lightly dust and vacuum on a regular basis. Never use standard cleaning products to remove dust, spills or stains from leather. Use only reputable and recognised leather specialist products.

UPHOLSTERED FURNITURE

A weekly vacuum using low suction and a soft brush accessory to remove dust and damaging dirt particles will help extend the life of your fabric and furniture.

100% Linen Fabric Dry cleaning is recommended. Colour may fade after prolonged exposure to sunlight.

Native Linen Natural Fabric Machine washable on a cold gentle cycle. A slight colour difference may be visible. Always use a mild detergent to wash fabric covers and ensure it's highly diluted (recommended ratio 1:100). Do not bleach.

Mixt Linen Natural Fabric Dry cleaning is recommended. Colour may fade after prolonged exposure to sunlight.

100% Polyester Fabrics For spills, cover with a super-absorbent cloth until most or all of the liquid has been absorbed. Allow the fabric to air-dry. Dabbing or rubbing will make the liquid penetrate further into the fibres. Removeable covers can be washed on a cold delicate cycle using a mild detergent. Do not bleach.

WOODEN FURNITURE

For general care we recommend dusting regularly with a clean, dry cloth, or wiping down with a slightly damp cloth. Always ensure you leave the surface dry after cleaning.

Elmwood & Solid Elm We recommend treating the furniture by waxing every 4 - 6 months with an uncoloured natural wood wax. Left untreated the furniture becomes more delicate and marks may become permanent. Any stains should be wiped off immediately with a damp cloth. Colour may fade after prolonged exposure to sunlight. Temperature and air humidity will also affect how the wood behaves. Some cracking may occur.

Solid Oak & Oak Veneer, Rubberwood & Rubberwood Veneer Any stains or spills should be cleaned immediately with a slightly damp cloth. We do not recommend products like Pledge, Spray & Wipe or similar on this furniture. Avoid contact with hot surfaces. Use coasters for mugs, glasses and vases.

Java Oak Wipe with a damp cloth. Some cracking may occur.

RATTAN Brush off any dirt and wipe with a damp cloth. Colour may fade after prolonged exposure to sunlight. If left outside, our rattan planters & baskets will break down over time. Recommended for indoor use.

ALUMINIUM (Indoor) Wipe spills immediately with a soft cloth. Avoid contact with hot surfaces. Use coasters for mugs, glasses and vases. Recommended for indoor use.

PRODUCT CARE

OUTDOOR MATERIAL CARE

Teak Outdoor Tables These are treated in 3 steps with lacquer to obtain a weathered worn colour. The treatments / lacquer will gradually fade over time after continued exposure to sunlight and water. Splits, cracking and slight movement should be expected as timber is a natural product. Our outdoor teak dining tables come with a bottle of Golden Care Teak Shield. More can be purchased from your Artwood stockist. Leave the furniture to weather for three months then clean the furniture with a damp cloth and apply the Golden Care Teak Shield with a soft cloth. Once dry the furniture may be used, this process should be repeated every three months.

TEAK SHIELD
1 Litre
G60004

Failure to care for your teak products may void our warranty.

Outdoor Wicker Recommended for both indoor and outdoor use, however not in freezing temperatures. May crack after prolonged exposure to strong sunlight and salt. We recommend regular washing with water and a soft scrubbing brush to remove dirt, dust and salt build up.

Outdoor Cushions Cushions should not be left out in humid or wet conditions for prolonged periods of time. If cushions are exposed to wet conditions they need to be dried thoroughly and over winter months we recommend storing cushions inside or under cover. Failure to dry thoroughly may result in mould or mildew. All covers are removable and washable in cold water; however dry cleaning is recommended. Replacement cushions or covers are available to purchase in the event of damage.

Powder Coated Aluminum Our powder coated aluminium ranges include Anson (frame only) and Romano (frame only). They require very little maintenance and can be cleaned with a damp cloth as required.

Sintered Stone - Romano Clean the top with a slightly damp cloth. Do not use any strong detergents. Always use coasters under glasses, cups, vases etc.. The frame can also be cleaned with a damp cloth as required.

Johnston Imports cannot be held responsible for any damage caused during attempts to clean furniture. We highly recommend that professional cleaners should be consulted. Please contact your local store for warranty terms.
